THE FROG HOLLER DIFFERENCE

chef-driven

Our driving passion is partnering with customers who truly care about their produce, and everything we do is geared to serve those with the highest expectations. Whether it's a particular variety, size, ripeness or specialty item our customers seek, we source our products with your particular needs in mind. It's this customized attention to detail that sets Frog's quality apart.

locally grown

For over 45 years, we have been dedicated to providing our customers with the largest assortment of locally grown produce Michigan has to offer. We partner with Michigan-based growers to offer our customers options all year round.

produce specialists

Most distributors claim "quality and service," but what sets Frog apart from the other guys is our dedicated team of produce specialists. Each employee is extensively trained in product knowledge, food safety procedures, up-to-date market information and a customer-first mentality. From Delivery Driver to General Manager, we talk, touch and taste produce all day long. Our customers expect more from Frog Holler, so we expect more from our team of produce specialists.
